Multi-genre Project Artifact Ideas

From Timberline, Spillway, Whiffletree, and Sawduster

These are the ideas for ways to show the information in the written and visual pieces, brainstormed collectively by each class. Remember that everything included in the project must be something that **YOU** have created. For example, if you are doing your project on a musician, you could use a song they have created in the background of a movie, keynote, or other project like that. However, the artifact would *not* be allowed to be only the song, as YOU did not create the song. Each artifact should relate directly to your topic and show an important piece of information about it. You are in no way limited to these ideas. Get creative! ☺

VISUAL

A poster

A sculpture

A picture (that YOU created!)

A speech

A game

A book

A movie or video

A facebook/edmodo profile for the person

Pixel art

Slideshow

Graffiti

Cartoon / comic

Inspiration

A skit

A song (like a rap or anything else)

A calendar

A map

Drawings

Paintings

Interpretive Dance

Keynote

Fliers

Pamphlet

Propaganda posters

Documentary

Timeline

Skit (you might want to record this)

Create a building or sculpture in Minecraft

WRITTEN

Poem (free form or formed)

Doctor's report

News article

A review

Persuasive essay (or any other kind of essay)

Series of letters

Short story

Interview

Series of emails

Opinion column, like in a newspaper

Obituary

Dialogue/conversation scene
